Office 29 Broad Street. FRIDAY, JANUARY, 15 1897.

after due deliberation formed them instruments, some have been using borrowed ones while others have had encouraged them by their contribu- out the very foundations of public

It is the purpose of this band to give concerts upon the green at least certs. What is needed for the suc for the township to erect a music which surveys all transactions, whether beneficent wishes for all who had so kindly stand upon the green and for a few social, political of commercial, from the thought of them. scribed to fit the band out with the instruments required. That Messrs private credit can long survive, nor for the occasion. F. M. Hinkle, H. M. Thomas, F. H. business prosper, nor enterprise succeed. The attendance was very large represent-Ward and others equally as well referred to was not a sudden outcropknown in social and musical circles, ping of vicious tastes or an abrupt erup. After the departure of some of the guests compose the band; is a guarantee that tion of youtnful folly. It was the logi- the floors were cleared for an informal dance the music furnished will be of the cal development of a tendency which in which the young people joined with great highest order. The movement should have the earnest support of all citizens upon whom it depends, whether the band plays upon the green or not | cial scandals and rank gossip, with the

Borough Legislation.

The Legislative Committee of the representatives of State boroughs met in Trent n on Saturda, Jan. 9th. The proposition to give the power of granting licenses to boroughs not now having that authority met unwholesome emanations have been the who have put away their wheels are missing with considerable opposition and was dropped. Two propositions were agreed to: First, not to change the present classification of boroughs, and, second, to permit a borough to have a tax rate of \$2 on the \$100, in addition to a rate necessary to to perform? No mission to accomplish raise the interest on the public debt of a to relieve it from the stain of complicity borough. The committee will meet again with the force of corruption and denext Thursday, when it will endeavor to moralization? Can it do nothing but complete its work so as to be able to report drop down with the tide? - Is there no at a meeting of the general conference to be anough of intellectual force in it, to say nothing of the stamina of moral purpose

A Record of Several Valuable English Ex- | self-respect, to do something to check

assert the rule of common morality, Stoker, who served during the campaign common decency and common sense? as an army surgeon, had an opportunity of observing the method in which the natives treated their wounded comrades. in it? Who take the first step toward quainted with the many benefits derived He noticed that they carried them to the highest point attainable, and there exposed the wounds to the purest air and standard of common morals? Social the action of pure water. This simple influences can do what is impossible for remedy was swift and sure, the worst any other agency, even legislation, to cases yielding rapidly under its influaccomplish. Who are the society ence, doubtless the healthy state of the leaders to undertake it and find in it blood and the absternious lives led by the natives having a good deal to do the reward of pu' lic approval, with the with the matter. Dr. Stoker was led to satisfaction of the highest social duty believe that the oxygen cure might be | done? this country he made several experisaw of it the firmer was his belief in his additional mails, and the change in bioycle weighing 20 pounds?" We want discovery. Bacteria consist of two kinds time of several others, which will greatly benefit the service of the Bloomfield

- the harmful micro-organisms and those necessary to the system, in order that the mechanism of the body may be carried on satisfactorily. Before the discovery of antiseptic surgery the risk which was run wherever a raw surface was exposed to the air was enormous, but with the introduction of antiseptics into the treatment the danger was reduced to a minimum. Iodoform has always been the special medium for use in the case of ulcers, and it is not a pleasant one, but it tended to hold the bacteria at bay. Now, however, it has has been applied and where the wound is healing the progress was marked by the presence of common organisms and that if a relapse occurred the bacteria conclusion that a certain number of these living organisms are necessary in the formation of new and healthy flesh. It was decided to enter upon a wider field of operations and test this experiment further-for it must be borne in
